

DENIS & LENORA FORETIA *foundation*

National Tour of 50 Schools in all 10 Regions

Yaounde, Cameroon (12 January, 2014). The foundation staff will undertake a national tour to all 10 regions and visit 50 secondary and high schools around the country to better expose young students to the National STEM Prize competition and the unique three-week Leadership Program for Young Scholars scheduled for July 2014 at the premises of Lycee Technique Nkolbison in Yaounde. The Leadership Program brings together leading young scholars specially selected for their leadership potential and community service. Students participating in the STEM Prize competition are required to submit a proposal that solves a unique problem in their communities. The national tour will allow students to interact with foundation staff and understand the specifics of this unique program. For additional information, please check out the link <http://www.foretiafoundation.org/leadership-program-home/>

Find below the schedule for school visits. Many thanks to the principals and Delegates for Education for their willingness to facilitate this program.
